

ONE THOUSAND NINE HUNDRED FORTY FOUR FEET IN ELEVEN POINT FOUR MILES

Please join us for the 2nd Annual Wildcat Mountain Uphill Challenge in the bucolic hills above Eagle Fern Park, Eagle Creek, Oregon. This Uphill Time Trial has something for everyone; steep sections for pure climbers, milder grades for power climbers and flat sections for speed demons.

This TT will level the playing field a bit and will likely favor the TT specialist rather than the pure climbers in the crowd. However, they too will have their opportunities to take back time from the power climbers as they speed up the steeper sections of the course. But for all, it will be a balancing act of doling out effort in the proper sections of the challenge.
