RACE DESCRIPTIONS

Points Race - A predetermined number of sprints occur at set intervals. For example, a 6x5 points race will have 6 sprints every 5 laps. A bell rings with one lap to go before each sprint. Points are awarded to the top 4 riders across the line for each sprint (5,3,2,1), the last sprint has double points (10,6,4,2). Riders are awarded 20 points if they lap the field or have 20 points subtracted if they lose a lap to the main field. The rider with the most points at the end of the race wins. Ties are broken by the finish sprint.

Snowball - A Snowball is a mass start race run over a set distance. The first rider across the line at the end of the first lap earns one point. The first rider across the line at the end of the second lap earns 2 points, etc., with the number of points for the first rider across the line for each lap “snowballing” until the end of the race. The rider with the most points at the end of the race wins. Ties are broken by the finish sprint.

Scratch Race - The basic track race. All riders race for a set number of laps. A bell rings with one lap to go. The first rider across the line wins.

Point-a-Lap - The first racer across the line every lap receives one point. You receive 4 points for lapping the field and lose 20 points for going down a lap. The racer with the most points at the end of a set number of laps wins.

Unknown Distance - The officials will roll dice to determine the number of laps raced. The racers will not know the length of the race. The lapboard will count up, with a bell ringing on the final lap. Placement will be the same as a scratch race.

Elimination - Neutral lap, 3 laps, then pulling a rider every other lap. Down to the final three riders. They will see two to go and sprint for final placement.

RACE DESCRIPTIONS CONT'D..

Super Sprint - The Super Sprint begins as an Elimination Race, neutral lap, 3 laps, then pulling the last rider across the finish line every lap until five riders remain. The remaining five riders then see 3 laps on the board and finish as a scratch race.

UCI Style Tempo - The first rider across the line every lap earns 2 points, the second rider earns 1 point. A rider earns 20 points for taking a lap on the field and loses 20 points for going down a lap. The rider with the most points at the end of the race wins. Ties are broken by the finish sprint.

Old School Tempo - The first rider across the line every lap earns 2 points, the second rider earns 1 point. A rider earns 4 points for taking a lap on the field and loses 20 points for going down a lap. The rider with the most points at the end of the race wins. Ties are broken by the finish sprint.

Split Scratch/Points - A points race with two sprints (5,3,2,1 both sprints).

Keirin - The Keirin is a 6 lap race with riders starting from a standing start. The riders draft behind a motorpacer for the first 3 laps with the motorcycle gradually accelerating up to 30+ mph before it departs from the track. Riders draw for position prior to the race and must position behind the motor in that order, after 1 lap riders can re-position themselves as long as one rider takes the position directly behind the motor. Once the motor pulls off, with three to go it is an all-out sprint for the finish line. Riders cannot pass the leading edge of the front wheel of the motor before it exits the track.
